Kennedy Says Data Is Test In New Probe

KEENE, N.H., May 12 (UPI) —Sen. Edward M. Kennedy (D-Mass.) says any decision on reopening the investigation into the assassination of President Kennedy should rest solely on whether the evidence warrants it.

Kennedy said this weekend he is "neither for . . . or against" a new inquiry. "Members of my family have been satisfied with it."

"Obviously it is painful for the family," Kennedy said. But, he said, "If evidence develops to warrant the reopening of it, it should be reopened. If not, then it should not."
